Database: MongoDB
Tools / Platforms: GitHub, VS Code, IntelliJ, Eclipse, Postman.

EDUCATION

B.Tech, Computer Science and Engineering Kalasalingam Academy of Research and Education, Tamil Nadu	June 2021 – May 2025 CGPA: 8.29
Higher Secondary (MPC) Sri Chaitanya Junior College, Telangana	June 2019 – May 2021 95.8%
Secondary Education CMR High School, Telangana	June 2018 – May 2019 CGPA: 8.7

PROJECTS

Tanvi Luxury Store — E-Commerce Platform (<https://tanvi-luxury-store.vercel.app>)

- Built a full-stack MERN e-commerce platform (React/Vite) with a customer storefront and separate admin dashboard, featuring OTP-based login, guest-to-user cart sync, and a 4-category product catalog.
- Engineered a Node.js/Express/MongoDB backend with Razorpay checkout (server-verified payments), Cloudinary image uploads, automated order-status emails, and admin tools for sales analytics, Excel export, and PDF invoices.

Shree Balaji Raghavendra Udiipi — Restaurant Ordering Platform (<https://udipi.vercel.app>)

- Built a full-stack MERN restaurant ordering platform (React/Vite) with a customer storefront and a separately deployed admin dashboard, featuring email/OTP login and live order tracking via WebSockets.
- Engineered a Node.js backend with Razorpay checkout, automated GST invoicing, transactional email (Brevo), and admin tools for menu management and sales reporting.

NTek Software Solutions — Europe Recruitment Platform (<https://www.nteksol.eu>)

- Built a multi-page React recruitment platform for NTek Europe, integrating a live job feed from the Oorwin ATS with candidate application hand-off.
- Developed serverless Node.js API endpoints (Vercel) for contact, candidate and employer forms, with automated email notifications and résumé file uploads.

Nikitha Software Solutions (<https://www.nteksol.com/>)

- Built responsive and visually appealing web interfaces using HTML, CSS, JavaScript, and Bootstrap during internship.
- Developed interactive and user-friendly UI components, ensuring seamless navigation and improved user experience.

EXPERIENCE

Nikitha Software Solutions

Jan 2026 – Present

- Working as a Full Stack Developer, developing and maintaining web applications using modern frontend and backend technologies.
- Building responsive UI components and integrating backend services to deliver scalable and user-friendly solutions.

CERTIFICATIONS

- Full-Stack Developer Course Completion - Grow.tech (08/2025 - 11/2025)
- Java Full Course Completion – Udemy (2023)
